

# *The Generations Series*

by Richards-Wilcox

Our Family-Safe Finger Protected Line

*"The Windmere"*

ELEMENTS OF TRADITION ~ ENGINEERED FOR LIFE

“Build my home with quality and details  
all thoughtfully considered to give  
...comfort!”

## The *Generations* Series

For the traditional look of a carriage house door, *The Windemere* - from our *Generations* series - is the right choice for you! Featuring unmatched durability, with its prefinished steel on both sides, it is virtually maintenance-free compared to wood.

Along with our Neufoam™ technologically advanced polyurethane insulating core, we offer 4 classic colours to choose from, many designer window offerings, decorative face hardware and our premium interior hardware package.

All *Generations* Door Systems are fully covered by our exclusive *LifeTimer Plus* warranty program.

For additional options, contact  
your local Richards-Wilcox dealer,  
listed on the back

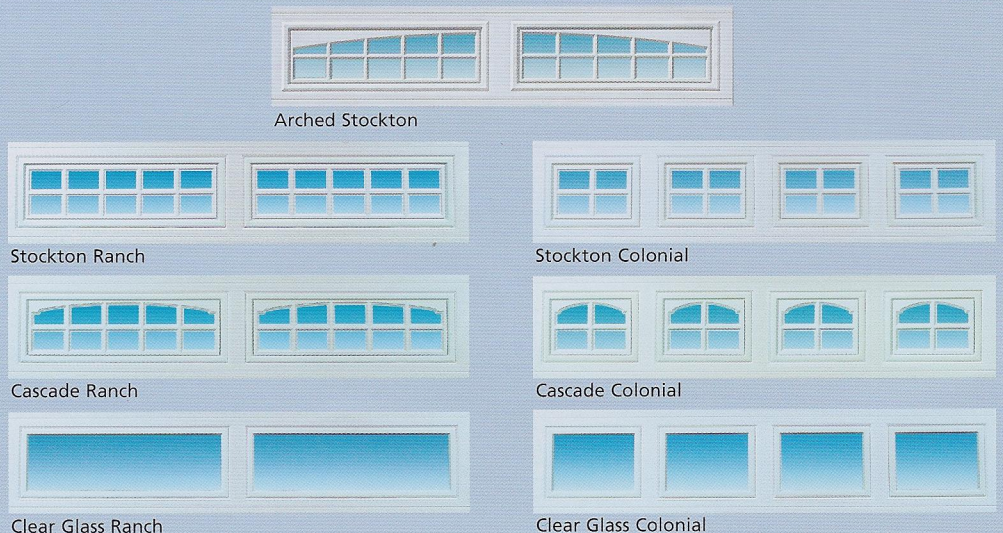

## TRADITIONAL DETAILS...

### Decorative face hardware

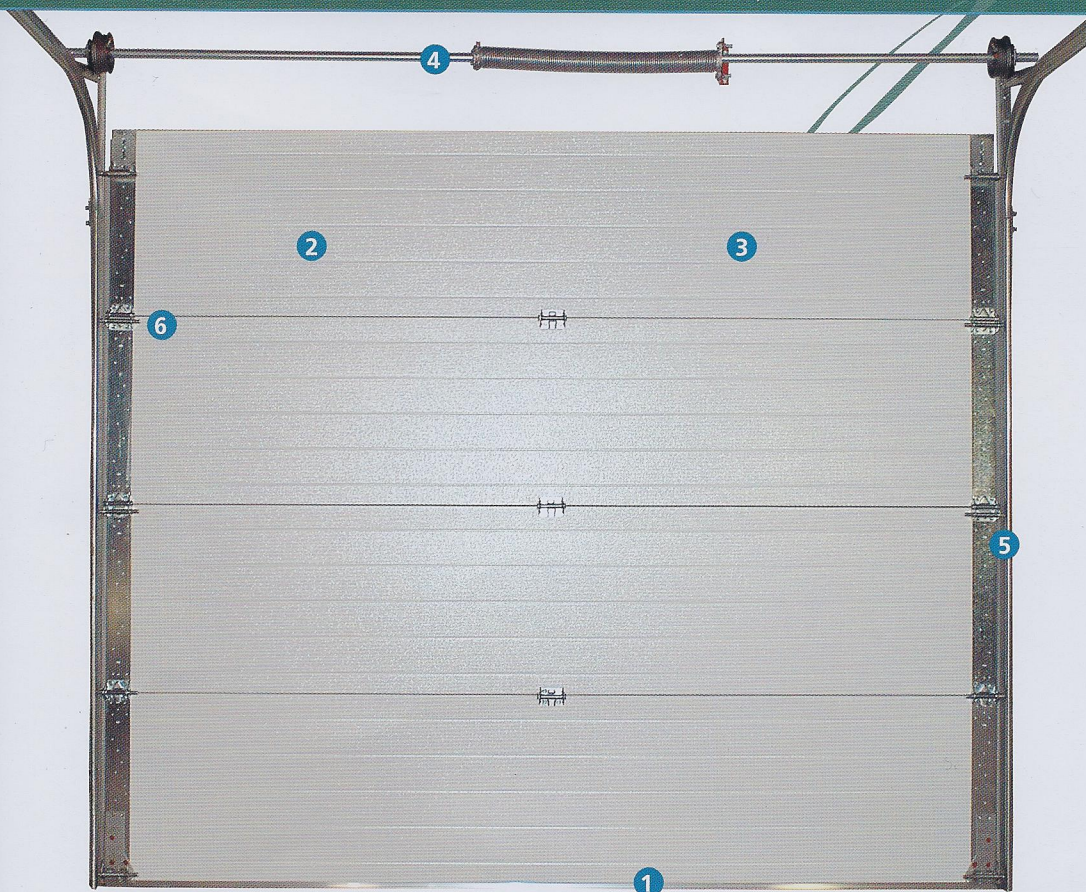

### Window Styles

# ENGINEERED TO LAST...

## FEATURES AND BENEFITS

### 1 • Superior Weather-Seal System

Standard dual between section seal ensures a tight fit, reducing air infiltration, along with flexible bottom weather-seal. Optional top and side seals are available for maximum protection against air infiltration

### 2 • Durability

Door sections are made from strong, corrosion-resistant embossed galvanized steel skins and are coated with a baked-on polyester paint finish for long life

### 3 • Environmentally Friendly

Employing our Neufoam™ technology offering 100% CFC and HCFC-free energy efficient polyurethane

### 4 • Corrosion Resistant

Galvanized spring, shaft, tracks and endcaps for a finished look

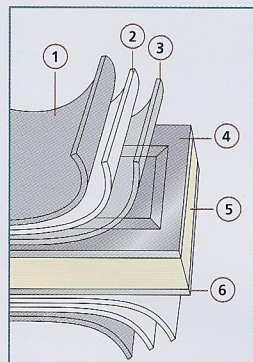

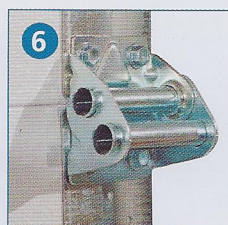

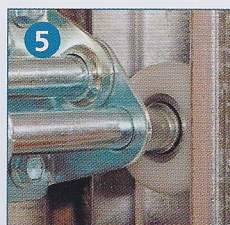

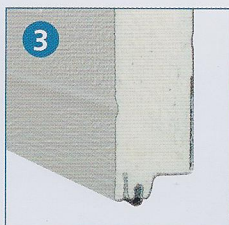

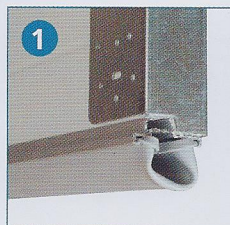

### 5 • Quiet Performance

10-Ball Nylon rollers are standard, ensuring years of smooth operation and noise reduction

### 6 • High Performance

Linear zinc-plated hinges offer the highest strength-to-weight hinging system in the industry

## Details

Door sections are made from strong, rust resistant, embossed galvanized steel, coated with baked-on polyester paint finish.

1 – Baked-on finish  
2 – Epoxy primer  
3 – Galvanized layer
